

Homeworkr Privacy Policy

Last updated: 9/15/2023

Thank you for using Homeworkr, a privacy-focused iOS app. This Privacy Policy outlines our commitment to safeguarding your data by collecting and storing only user-submitted information locally on your device, ensuring it never leaves your device.

User-Submitted Data:

Homeworkr may allow users to submit data within the app for their personal use. This data is collected and stored locally on your device and is never transmitted off-device.

Types of Data Collected:

The app may collect user-submitted information such as homework assignments, classes, grades, and preferences. This information is stored locally and used to enhance your app experience.

Data Usage:

The collected user-submitted data is used solely to provide you with the intended features and functionality of Homeworkr.

Data Sharing:

No data is shared or transmitted to any external server or third party. All data is stored locally on your device.

Permissions:

Homeworkr only requires permissions necessary for local data storage and app functionality. It does not access or transmit user-submitted data.

Contact:

If you have any questions or concerns about this Privacy Policy, please contact us at c.chapman.developer@gmail.com.

Policy Changes:

Any updates to this policy will be posted on this page.

By using Homeworkr, you agree to this Privacy Policy.
